

SCHOOL BUS SAFETY RESOURCES

School bus safety is not about practising safe habits for just a week; it's about making sure everyone knows what to do throughout the entire school year. Whether it's the rules of the road, behaviour on the bus, safety mechanical awareness, proper loading of the bus, or how to properly dress for the weather conditions. It's all important.

The following resource materials have been developed by Alberta Infrastructure and Transportation's Office of Traffic Safety and key stakeholders to ensure everyone knows and practises the ABC's of school bus safety:
