

# *Snowmobile Safety*

## **BE A GOOD SPORT**

Setting a positive example, and following these simple, common sense rules, can help the sport grow in the best way possible:

### **Leave Tracks, Not Trash**

If you had space to bring it in, then respect nature by carrying it out too.

### **Maintain Your Sled**

A well-tuned snowmobile is more environmentally friendly and reliable.

### **Protect Wildlife**

Animals are more vulnerable in winter, so keep your distance and leave them alone.

### **Keep it Quiet**

Refrain from using after-market pipes that increase noise and annoy others. Know all laws regulating the operation of snowmobiles.

### **Stay on the Trail**

Whenever possible, reduce your environmental impact by riding on organized trails. Respect the rights and property of others and snowmobile where permitted.

### **Respect Sensitive Areas**

There are lots of other places to ride, so avoid areas marked as environmentally sensitive or protected.

### **Embrace New Technologies**

Mother Nature appreciates snowmobiles that run even more efficiently and effectively.

### **Spread the Word**

Snowmobiles have improved continually thanks to oil injection, sound reduction measures, variable height exhaust valves, direct injection, on-board computers and now, 4-stroke engines.

### **Lend a Hand**

Give a helping hand when you see someone in distress and assist in search and rescue parties if needed. For more info, please visit [www.ccsso-ccom.ca](http://www.ccsso-ccom.ca)

### **Ride Safe. Ride Sober.**

Responsible riding begins with you — as a club member, family member and as an individual rider.

If you have any suggestions on traffic safety issues that are of interest to you and your community, or for more information, please contact:
